

About the NWTF: The National Wild Turkey Federation is a national 501(c)(3) nonprofit conservation organization that is dedicated to the conservation of the wild turkey and the preservation of our hunting heritage.

Through dynamic partnerships with state, federal and provincial wildlife agencies and corporate partners, the NWTF and its more than 350,000 members have helped restore wild turkey populations across the country, raised and spent more than \$286 million, and conserved nearly 14 million acres of habitat for all types of wildlife.

The Federation also works to increase interest in the outdoors by bringing new hunters and conservationists into the fold through special outdoor education events and its outreach programs – Women in the Outdoors, Wheelin’ Sportsmen, JAKES and Xtreme JAKES.

The NWTF was founded in 1973 and is headquartered in Edgefield, S.C. According to many state and federal agencies, the comeback of the wild turkey is arguably the greatest conservation success story in North America’s wildlife history.

Corporate Partnerships

Making a Positive Impact on People and Wildlife

NWTF Corporate Partnerships

WHY ARE PARTNERSHIPS IMPORTANT?

The NWTF is constantly looking for new opportunities to create and improve wildlife habitat, as well as providing outreach opportunities throughout the U.S.

Most of the land in the U.S. is privately owned, which makes these partnerships key to making a positive impact in the outdoors.

Our Corporate Partners continue to provide important contributions to wildlife habitat and outreach through support of local, regional and national activities on many properties, including their own.

WHO CAN BE A PARTNER?

There are a number of areas where a company can be included as a NWTF Partner.

Forestry Partners

Forestry and forest products companies that desire assistance with a number of issues, including public relations, education/outreach, mitigation, access and reduced liability

Energy for Wildlife Partners

These are mainly companies that generate, transmit and distribute energy throughout the U.S. There are also opportunities for the contractors and other companies that support the energy industry.

Corporate Acres for Wildlife Partners

These companies have landholdings and wish to have a professional management plan developed to support wildlife conservation.

Conservation Partners

Most any company falls into this option of support for conservation, education/outreach and community involvement.

PROGRAM BENEFITS

Each Partnership provides a number of benefits to each company, including:

- Public Relations
- Outreach / Education
- Industry / Agency Liaison
- Property management
- Property Certification
- Business Networking
- Reduced ROW Maintenance Costs
- Listing in NWTF Publications / Websites
- Local, Regional and National Recognition
